Chennai, India | Available for Immediate Joining

Education

Vel Tech High Tech Dr. RR & Dr. SR Engineering College
B.E. Computer Science & Engineering
AI & ML Specialization — Honors
Nov 2022 – Feb 2026 | Chennai
CGPA: 8.30 / 10.0

**St. Ignatius Convent
Higher Secondary School**
HSC & SSLC
Jun 2019 – Apr 2022 | Chennai
HSC (Class XII): **83.2%**
SSLC (Class X): **82.8%**

Coursework

NLP • Deep Learning (CNN, RNN, LSTM)
BERT & Transformers • Computer Vision
Model Evaluation • Feature Engineering
Statistical Analysis • SQL

Skills

Programming

Python • SQL • Java

AI / ML

BERT • Hugging Face • Scikit-learn
CNN • RNN • LSTM • Transformers

Data & Visualization

Pandas • NumPy • Matplotlib
Seaborn • OpenCV

Tools & Annotation

Git • Web Crawling
Data Labeling • MS Office

Certifications

GUVI — SaWit.AI ML Challenge
NPTEL — Cybersecurity • Python • ML
Forage — Data Analytics (Accenture)

Awards

Top 5 — VOYAGE 2024 Hackathon,
VIT Chennai
IJCRT Peer-Reviewed Publication

Profile

CSE Graduate — AI & ML Specialization | Fresher | Target: ML Data Associate @ Amazon

Industry-ready with hands-on NLP, computer vision, and ML experience. Proven at annotating multi-modal data (text, image, audio) with 88–91% accuracy under production SOPs, meeting daily targets, and escalating quality issues through SLA channels.

Experience

NSIC Service Centre | Data Analytics Intern

Jun 2024 – Aug 2024 | Chennai, India

- Executed end-to-end data preprocessing — missing value treatment, outlier removal, and feature encoding — directly mirroring ML ground-truth data preparation.
- Built Matplotlib/Seaborn dashboards to surface KPI trends; practised structured reporting and escalation through defined SLA channels.
- Ran supervised ML training, evaluation, and deployment cycles; tracked daily productivity targets and logged task completion status using internal tools.

Projects

DarkTracer | AI-Powered Threat Intelligence System

Nov 2025 – Feb 2026 | Python • BERT • NLP • Hugging Face • Web Crawling

- Crawled and labeled **500+ daily data points** to detect credential leaks and PII exposure; applied fine-tuned BERT classification achieving **~88% accuracy**.
- Reduced analyst review time by **~40%** via structured alert output; zero data confidentiality violations throughout.

Image-Speech Recognition System | Accessibility Tool for Impaired Users

Mar 2024 – Jun 2024 | Python • CNN • LSTM • OpenCV

- Combined CNN image classification with LSTM speech synthesis to build a real-time assistive tool; curated and quality-audited a custom-labeled dataset.
- Achieved **91% classification accuracy**; published in peer-reviewed **IJCRT** (2024).

Demand Forecasting for Supermarkets | Predictive Analytics

Mar 2023 – Apr 2023 | Python • Pandas • NumPy • Matplotlib

- Analyzed **10,000+ retail transactions** to identify seasonal demand patterns; applied feature engineering and statistical modeling to improve forecast accuracy by **15% over baseline**.

Research & Publications

DarkTracer: AI-Powered Threat Intelligence for Detecting Dark Web Data Leaks | Conference Paper

ICCI 2026 — 7th Intl. Conference on Computational Intelligence & Industry 5.0
Velammal Institute of Technology, Chennai | 2026

Image-to-Speech Recognition System for Impaired Users | Peer-Reviewed Journal Article
