CAREER OBJECTIVE

Industry-ready CSE (AI & ML) graduate with hands-on experience in NLP, computer vision, and predictive systems, seeking a fresher role to solve real-world problems, deliver measurable impact, and grow within a high-performing team.

EDUCATION

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College B.E. Computer Science & Engineering (AI & ML) – Honors	Nov 2022 – Feb 2026 CGPA: 8.30 / 10
St. Ignatius Convent Hr. Sec School HSC: 83.2% SSLC: 82.8%	Jun 2019 – Apr 2022

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java
AI / ML Frameworks: CNN, RNN, LSTM, BERT, NLP, Transformers, Scikit-learn, Model Evaluation
Data Analysis: Pandas, NumPy, Data Cleaning, Feature Engineering, Statistical Analysis
Visualization: Matplotlib, Seaborn, OpenCV
Tools: Hugging Face, Git, Web Crawling

PROJECTS

DarkTracer – AI-Powered Threat Intelligence System for Data Leaks <i>Tools: Python · NLP · BERT · Hugging Face · Web Crawling</i> - Crawled and processed 500+ daily web data points to detect credential leaks and PII exposure. - Applied BERT-based NLP classification to identify threat types with ~88% accuracy. - Reduced manual analyst review time by ~40% via structured alert output and reporting.	Nov 2025 – Feb 2026
Image-Speech Recognition System for Impaired Users <i>Tools: Python · CNN · LSTM · OpenCV</i> - Built real-time accessibility tool combining CNN image recognition with speech synthesis. - Achieved 91% classification accuracy on a custom-labeled image test set. - Used LSTM for context-aware audio narration, significantly improving output coherence.	Mar 2024 – Jun 2024
Demand Forecasting for Supermarkets <i>Tools: Python · Pandas · NumPy · Matplotlib</i> - Analyzed 10,000+ retail transactions to identify seasonal demand patterns and bottlenecks. - Improved demand prediction accuracy by 15% over baseline, optimizing inventory planning.	Mar 2023 – Apr 2023

INTERNSHIP

Data Analytics Intern – NSIC Service Center - Performed end-to-end data preprocessing: missing value treatment, outlier removal, and feature encoding. - Built Matplotlib/Seaborn dashboards to present KPI trends and insights to non-technical stakeholders. - Gained hands-on experience in supervised ML model training, evaluation, and deployment workflows.	Jun 2024 – Aug 2024
--	---------------------

CERTIFICATIONS

- GUVI – SaWit.AI Challenge: Machine Learning Assignment
- NPTEL – Cybersecurity, Problem Solving in Python, Machine Learning
- Forage – Data Analytics and Visualization Job Simulation (Accenture)
- Published “Image-to-Speech Recognition System for Impaired Users” in International Journal of Creative Research Thoughts (IJCRT)
- Secured **Top 5** in *VOYAGE 2024 Hackathon* conducted by VIT Chennai
